PROFESSIONAL PROFILE

Software Development student and IT Technician, specialized in creating web and e-commerce solutions with a focus on user experience (UX) and performance. Hands-on experience with modern technologies like **React**, **JavaScript** and CMS platforms. Passionate about *full-stack* development and process optimization. Seeking an entry-level position that allows me to apply my technical skills in a high-impact, professional environment.

TECHNICAL SKILLS

Frontend: React, JavaScript (ES6+), HTML5, CSS3, Responsive Design (Bootstrap, Media Queries).

Backend/Databases: Python, PHP (Basic), Databases (SQL/NoSQL), OOP.

E-commerce/CMS: WooCommerce, Shopify, TiendaNube, WordPress.

Tools: Git (local management and version control), VS Code, Figma.

WORK EXPERIENCE

Freelance Web Developer

2023 – Present

- **Designed and developed** custom websites for private clients, achieving intuitive and modern user interfaces.
- **Implemented** advanced responsive designs to ensure optimal viewing on all devices and optimize performance (fast loading).
- **Managed and customized** online stores using **WordPress/WooCommerce, Shopify, and TiendaNube**, handling setup, plugins, and themes.

PROJECTS / PORTFOLIO

Personal Portfolio – santiagomaggi.com

- Personal website developed as a modern **Front-end project** with a clean design and fluid animations, highlighting **layout and UX skills**.
- Technologies used: HTML5, CSS3, **JavaScript** (ES6+), and *mobile-first* design practices.

Custom Online Stores

- Development of personalized *e-commerce* on platforms such as **WooCommerce and Shopify**.
- Focus on the shopping experience and the integration of payment gateways.

EDUCATION

Technical School IpetyN N°59

Technical Degree in Programming (Expected 2025)

- Relevant Coursework: Object-Oriented Programming (OOP), Databases, Web Development, Data Structures.
